

Print your own Zoone key

Visit the link below to access the file to 3D-print your own version of Aunt Temperance's Zoone key. Once it is printed, you can paint it with a variety of metallic paints (remember, it's an old key, so you might want to paint it to look tarnished).

You can also attach a leather cord to it so that it can be worn around the neck—especially important if you're planning to dress up as a Zoone character for a Halloween or book celebration event.

Download the template for use with a 3D printer here:
